

## Create Your Own Christian Based Home Business

There are many who would like to be working in a Christian based home business. But, if you look around, you will find there are not that many existing Christian business opportunities out there. How about capitalizing on your own strengths and interests and creating your own Christian home based business?

If you are think about it, there are limitless possibilities of starting a Christian based home business. You could start a Christian daycare and offer Christian activities and a Christian environment for the children you take care of. You could do Bible crafts and plays, read them Bible stories, have Bible based puppet shows, pray with them and teach them some kids worship songs. Think about the impact you could have on the lives of the kids that are left in your care. Just be sure to be completely open with the parents about what you plan to do.

You could write Christian material for kids, parents, singles or any other group of people. This could be a published hard copy book or an eBook. Do you have some tips for Christian parents who want to encourage purity in their teenagers? Do you have a gift in explaining Bible stories to kids in an understandable and fun way? Write!

You could offer transcription or Virtual Assistant services to Christian business owners. Many would be happy to work with "like minded" people. One way to find clients is to join some Christian based home business forums or approach owners of the Christian websites you find on Google. Just don't "spam." Calling them on the phone is the best way to approach contacting them.

How about the greeting card business? You will probably agree that there are times you just can't find the right card that says what you want it to. You could write your own verses or do the art work.

Another great niche is Christian gift baskets. Include some scripture tea, Christian music cd's, journals and devotion type books. You could offer them to pastors to have a unique gift to give for a get well, anniversary or birthday gift. You can even offer to specialize the basket with gifts that the particular recipient will enjoy.

Making Christian crafts and jewelry is another business you could start. Sell them at craft sales, churches for fundraisers, and Christian books and gifts stores. Also, set up a website and sell them online.

You could make Christian t-shirts, purses or other articles of clothing with Bible verses on them.

Start a blog and blog about news or topics that are of interest to Christians. Then, find some good Christian affiliate products you can offer on your blog. That way, you'll earn money whenever you make a sale. You can also set Google AdSense up on your blog and earn when someone clicks on an ad. You will want to restrict what can be placed there, which you can do by blocking questionable or objectionable ads when you see them appear.

With a little creativity, you can put together your own Christian based home business. Just make sure to do your research before getting too involved and make sure there is a market out there looking for the type of product/service you want to offer and willing to spend money on it.
